Purpose, Scope, and Content

This report is intended to serve as a summary of the financial activity for the City of San Diego through Period 5 of Fiscal Year 2009. The General Fund is the primary focus of this report; however, other budgeted funds are also discussed. This report does not contain the operating results of numerous special revenue funds, debt service funds, enterprise funds, internal service funds, fiduciary funds, or capital project funds.

The following report, including the attached supporting schedules, provides a comparative analysis of the activities between the current and previous fiscal year. This type of analysis results in a variance between two definite values rather than between one definite value and an estimate. Nevertheless, comparisons to Period-to-Date Budgets continue to be important and are therefore included in the supporting schedules of the General Fund as an informational item. The General Fund Revenue and Expenditure sections of this report also include summary tables showing the top five variances between departmental Period-to-Date estimates and actual balances.

Additionally, the attached schedules contain **un-audited** information, were not prepared in accordance with Generally Accepted Accounting Principles (GAAP) for external financial reporting purposes, and should not be relied upon for making investment decisions. Likewise, this report is not a replacement for the City of San Diego’s Comprehensive Annual Financial Report (CAFR). For additional information about the City’s financial reporting, please visit the internet at: <http://www.sandiego.gov/comptroller/reports/index.shtml>.

This report was prepared as of Period 5 of Fiscal Year 2009 (ended November 14, 2008). Unless otherwise stated, the balances discussed are as of this date. Likewise, references to the previous year, or last year, are as of Period 5 of Fiscal Year 2008 (ended November 16, 2007).

SUMMARY

As of the conclusion of Period 5, Fiscal Year 2009 (37.0% of the year completed), General Fund revenues totaled \$189.3 million. This is a \$35.5 million (23.1%) increase from the same point last year and is primarily due to increases in the Services and Transfers category. When compared to the Fiscal Year 2009 Period-to-Date Budget, actual revenues are \$12.2 million (6.1%) less than anticipated. This variance is mostly due to lower than anticipated Property Taxes and Property Transfer Taxes as well as delayed postings of Transient Occupancy Tax and Fines & Forfeitures receipts.

General Fund expenditures totaled \$422.3 million as of the conclusion of Period 5, Fiscal Year 2009, which marks an increase of \$33.7 million (8.7%) from the same point last year. When compared to the Fiscal Year 2009 Period-to-Date Budget, however, actual expenditures are \$39.4 million (8.5%) less than anticipated.

As of the conclusion of this reporting period, General Fund expenditures exceed revenues by \$233.0 million; however, once the \$40.7 million of encumbered commitments are taken into account, this difference grows to \$273.7 million. This relationship is illustrated in the following table.

General Fund Status Summary			
	Adopted Budget	Revised Budget	FY09 YTD Actuals
Revenues	\$ 1,193,432,471	\$ 1,193,541,493	\$ 189,278,706
Expenditures	1,193,432,471	1,203,541,493	422,263,101
	<u>\$ -</u>	<u>\$ (10,000,000)</u>	(232,984,395)
Encumbrances			40,738,718
Net Impact			<u>\$ (273,723,113)</u>

The trend of expenditures exceeding revenues is common in periods early in the fiscal year. Historically, expenditures have exceeded revenues in each period until the first major Property Tax receipts are received which, this year, has occurred in Period 6. Realizing that this concept is consistent with the operating activity in previous years, the current deficit impact to General Fund equity is not indicative of projected year end performance. For projected year-end results, please refer to Financial Management's First Quarter Report (O-19822).

As of Period 5, the General Fund expenditure budget exceeds the revenue budget by approximately \$10.0 million, the variance being due to the creation of an appropriated reserve. Budget revisions are detailed in the General Fund Budget Reconciliation section of this report.

GENERAL FUND BUDGET RECONCILIATION

Two actions have affected the Fiscal Year 2009 Adopted Budget as of Period 5 and are detailed in the table presented below¹. Of the \$10.1 million of appropriation increases, \$10.0 million was funded from the General Fund unallocated reserves and \$109,022 was funded by excess revenue.

General Fund Budget Reconciliation

Estimated Revenue		
Action	Authority	Amount
FY2009 Adopted Budget	O-19774	\$ 1,193,432,471
Business Cooperation Program	O-19774	109,022
Final FY2009 Revised Budget		<u>\$ 1,193,541,493</u>

Expenditure Appropriations		
Action	Authority	Amount
FY2009 Adopted Budget	O-19774	\$ 1,193,432,471
Establishment of Appropriated Reserve	O-19774	10,000,000
Business Cooperation Program	O-19774	109,022
Final FY2009 Revised Budget		<u>\$ 1,203,541,493</u>

Expenditure Appropriation increases were funded by:

Excess Revenue	\$ 109,022
General Fund Reserves	\$ 10,000,000

GENERAL FUND REVENUES

General Fund revenues totaled \$189.3 million which is \$35.5 million (23.1%) higher than this point last year and is \$12.2 million (6.1%) less than estimated in the Period-to-Date Budget. The following table illustrates the historical trend of the City's revenue as well as a comparison to the revenue generated during the first five periods of Fiscal Year 2009.

General Fund Revenue Analysis

¹ Budget adjustments related to Financial Management's First Quarter Report (O-19822) will be included in the Period 6 Financial Performance Report.

The following is a discussion of revenue categories with either significant year-to-year changes or variances when compared to Period-to-Date Budgets.

- *Property Taxes* revenue totaled \$23.4 million which is down \$1.8 million from this point last year and is down \$3.6 million compared to the amounts estimated in the Period-to-Date Budget. These variances are due to the slowdown in the housing market.
- *General Fund Transient Occupancy Taxes* revenue totaled \$24.4 million which is down \$1.5 million from this point last year and is down \$2.2 million compared to the Period-to-Date Budget. These variances are primarily due to delayed postings of monthly receipts.
- *Property Transfer Taxes* revenue totaled \$1.6 million which is down \$1.2 million from this point last year and is down \$2.7 million compared to the Period-to-Date Budget. These variances are due to the slowdown in the housing market.
- *Fines and Forfeitures* revenue totaled \$10.7 million which is up \$3.8 million from this point last year and is primarily due to the receipt of a litigation settlement as well as to one additional monthly parking citation receipt posted this year. Revenue in this category is \$3.2 million lower than the Period-to-Date Budget, however, due mainly to Parking Citation receipts being posted later than expected.
- *Franchises* revenue totaled \$4.1 million which is up \$1.7 million from this point last year and is also up \$1.7 million in comparison to the Period-to-Date Budget. These variances are due to a Cable TV franchise receipt that was received earlier than anticipated.
- *Rents and Concessions* revenue totaled \$15.2 million which is \$2.5 million higher than this point last year and is mainly due to the recognition of revenue which previously was recognized in the Stadium fund. However, revenue in this category is \$3.2 million less than the anticipated Period-to-Date Budget due to transactions being posted later than anticipated as well as to Period-to-Date Budgets not correctly capturing the timing of transactions.
- *Charges for Current Services* revenue totaled \$16.0 million which is up \$2.6 million from this point last year and is also up \$2.6 million compared to the Period-to-Date Budget. These variances are mainly due to reimbursements from the State of California and the California Office of Emergency Services for fire services related to the October 2007 Wildfires.
- *Services and Transfers* revenue totaled \$44.8 million which is \$30.3 million higher than this point last year and is \$1.3 million higher than the Period-to-Date Budget. These variances are primarily due to an increase in services provided by the Engineering and Capital Projects department and General Services

department as well as to timing differences when posting budgeted transfers from other funds such as Transnet, Gas Tax, and Transient Occupancy Tax.

The following table compares actual revenues to the corresponding amounts reported in the Period-to-Date Budget and identifies the categories with the five largest variances.

General Fund Revenue Period-to-Date Variance Analysis				
	PTD	FY09 YTD

Remaining Revenue Categories	124,413,331	122,300,716	(2,112,615)	-1.7%
Total General Fund Revenues	\$ 201,503,301	\$ 189,278,706	\$ (12,224,595)	-6.1%

Additional details of General Fund revenues can be found on the schedules accompanying this report.

GENERAL FUND EXPENDITURES

General Fund expenditures totaled \$422.3 million which is a \$33.7 million (8.7%) increase from last year. Despite this increase, the General Fund has expended \$39.4 million (8.5%) less than estimated in the Period-to-Date Budget. The discussion below addresses the expenditure categories with significant changes from last year as well as the individual departments that contribute to these variances.

- *Personnel* expenditures are up \$13.2 million from this point last year primarily due to the filling of vacancies and increases in labor services in the Police Department, San Diego Fire-Rescue, and Engineering and Capital Projects.
- *Fringe Benefits* expenditures are up \$8.1 million from this point last year primarily due to a change in the distribution method used to post the General Fund's budgeted Other Post Employment Benefits (OPEB) expenditures.
- *Supplies / Services* expenditures are up \$12.5 million from this point last year mainly due to increased transfers to the Public Liability Fund in Fiscal Year 2009.

The following exhibit illustrates the historical trend of the City's expenditures as well as a comparison of the expenditures incurred during the first five periods of Fiscal Year 2009.

General Fund Expenditure Analysis

The following discussion addresses the departments with either significant year-to-year changes or variances when compared to Period-to-Date Budgets.

- *Park and Recreation* expenditures totaled \$31.9 million and are up \$1.7 million from this point last year due primarily to a change in the distribution method used to post the budgeted Other Post Employment Benefits (OPEB) expenditures as well as to increased expenditures in personnel and landscaping services. However, expenditures are \$1.8 million less than the Period-to-Date Budget which is primarily due to delays in recording outlay expenditures.
- *Citywide Program* expenditures totaled \$35.6 million and are \$10.5 million higher than last year primarily due to increased transfers to the Public Liability Claims Fund. However, the department is \$2.4 million lower than its Period-to-Date Budget which is primarily due to invoicing delays from the County of San Diego Registrar of Voters related to the Citywide Elections.

- *Police Department* expenditures totaled \$144.6 million and are up \$6.3 million from this point last year largely due to increases in personnel expenditures as well as to a change in the distribution method used to post Other Post Employment Benefits (OPEB) expenditures. However, the department is \$3.1 million below its Period-to-Date Budget which is primarily due to savings from vacancies and lower than anticipated Supplies/Services expenditures.
- *Engineering and Capital Projects* expenditures totaled \$21.1 million and are up \$8.5 million from this point last year primarily due to the inclusion of the Special Engineering department in the General Fund in Fiscal Year 2009. However, this department is \$3.8 million lower than the Period-to-Date Budget which is due mainly to lower than anticipated contractual expenditures as well as to savings from vacancies.
- *General Services* expenditures totaled \$20.5 million and are \$11.1 million lower than the Period-to-Date Budget. This variance is primarily due to lower than anticipated Supplies/Services expenditures in the Street division.
- *Storm Water* expenditures totaled \$6.2 million and are up \$5.1 million from this point last year mainly due to increased personnel costs, contractual services, and motive equipment rentals. However, this department is \$11.1 million below the Period-to-Date Budget which is primarily attributable to lower than anticipated expenditures in the project and contract areas.

The following table compares actual expenditures to the corresponding amounts reported in the Period-to-Date Budget and identifies the departments with the five largest variances.

General Fund Expenditure Period-to-Date Variance Analysis

	PTD Budget	FY09 YTD Actuals	Variance	%

Other Budgeted Funds

WATER DEPARTMENT

Water Department revenue totaled \$191.1 million which is a \$41.7 million increase from last year and is primarily a result of additional funding received in support of CIP contracts related to three water treatment plants as well as water main replacement projects. However, revenue in the department is \$8.6 million below the Period-to-Date Budget which is mainly due to timing differences of recording reimbursement revenue from CIP related bonds.

Water Department expenses totaled \$153.1 million which is up \$33.4 million from last year and is primarily due to increases in CIP expenditures related to the projects previously identified. Additionally, Water Department expenses are \$2.9 million below the Period-to-Date Budget which is mainly due to timing differences when recording expenditures as well as to vacancies.

As the following table indicates, year-to-date revenue exceeds expenses by \$38.0 million. However once the \$135.7 million of encumbered commitments are taken into account, expenses and encumbrances exceed revenue by approximately \$97.7 million.

In an effort to improve the transparency of the financial data included in this report, the table presented above has been modified from previous reports by presenting the operating activity separately from the CIP activity. Additional details of Water Department revenues and expenditures can be found on the schedules accompanying this report.

SEWER FUNDS

Sewer Funds revenue totaled \$143.6 million which marks a decrease of \$9.7 million from last fiscal year and is primarily due to a decrease in large scale commercial building permit and residential permit activity. Additionally, Sewer revenue is \$28.3 million lower than the Period-to-Date Budget which is primarily due to lower than anticipated bond proceeds received as well as to the decrease of permit activity previously discussed.

Sewer expenses totaled \$96.3 million which is down \$8.7 million from last year and is down \$66.8 million in comparison to the Period-to-Date Budget. These variances are primarily due to timing differences of transactions resulting from vacancies, bond repayments, and the anticipated merge with the Water department.

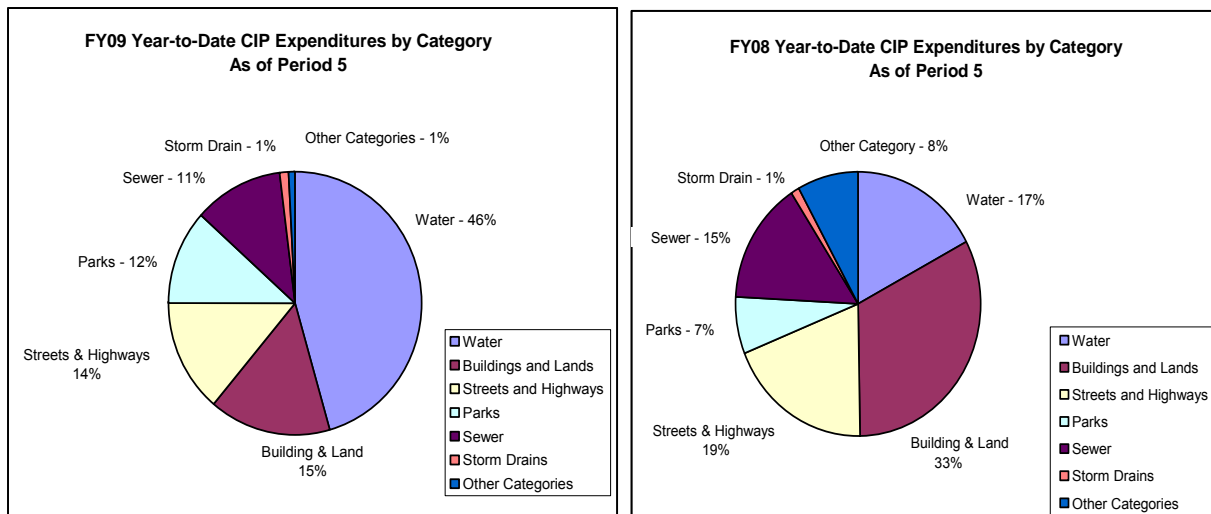

The following table indicates that year-to-date revenues exceed expenses by \$47.3 million. However, once the \$101.7 million of encumbered commitments are taken into account, year-to-date expenses and encumbrance exceed revenue by \$54.4 million.

In an effort to improve the transparency of the financial data included in this report, the table presented above has been modified from previous reports by presenting the operating activity separately from the CIP activity. Additional details of Sewer Fund revenues and expenditures can be found on the schedules accompanying this report.

Capital Improvement Projects

Year-to-date Capital Improvement Project (CIP) expenditures totaled \$88.0 million which is an increase of \$19.2 million (27.9%) from last year's expenditures of \$68.8 million. A significant amount of this variance is due to additional funding received by the Water Department which enabled additional construction contracts for two water treatment plants as well as for water main replacement projects. The following charts compare, by category, the expenditures incurred as of Period 5 of Fiscal Year 2009 and Fiscal Year 2008.

The following tables present the 25 largest projects currently within the City based on year-to-date expenditures. Also included are project-to-date budgets and expenditures. The presentation of this data has been modified from previous reports which have showed the top five projects within each category identified above.

SUMMARY OF PAYROLL ACTIVITY

One of the significant functions of the City Comptroller's Office is the distribution of the City of San Diego's bi-weekly payroll. The following graph represents the trend of total number of paychecks issued and total dollar amount of bi-weekly pay over the past two fiscal years. The number of paychecks issued is not the same measure as Full Time Equivalent (FTE) employees. The number used in this analysis includes many part-time and recently terminated employees. Non-recurring activity, such as Terminal Leave payouts and the cashing out of accumulated Annual Leave, may distort individual distributions. The trends described below are a reasonable indicator of City staffing levels and payroll obligations as of the pay period ended November 14, 2008.

Payroll Trend Analysis

- A) These spikes in payroll related expenditures are from the cash pay out of unused flexible benefits.
- B) This spike in payroll related expenditures represents the payment of annual uniform allowances.
- C) This spike in payroll related expenditures is due to the October Wildfires.
- D) This spike in payroll related expenditures is from Bid-to-Goal expenses.
- E) This spike in payroll related expenditures is from MEA Settlement (\$6.2 million in total).

The following table shows the changes of selected payroll related statistics from the pay period ended November 16, 2007 to the pay period ended November 14, 2008 which are the last full pay periods in the fifth period of each fiscal year.
