INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Redevelopment Agency of the City of San Diego, California (Agency), a component unit of the City of San Diego, California, as of and for the fiscal year ended June 30, 2003, which collectively comprise the Agency's basic financial statements as listed in the accompanying table of contents. These financial statements are the responsibility of the Agency's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Agency as of June 30, 2003, and the respective changes in financial position for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 24, 2007, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis information on pages 4 through 12 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The Introductory Section, Combining Fund Statements and Schedules – Nonmajor Governmental Funds and the Supplemental Information Section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Combining Fund Statements and Schedules – Nonmajor Governmental Funds identified in the accompanying table of contents has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Introductory Section and the Supplemental Information Section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Management's Discussion and Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)
(Dollar Amounts)
June 30, 2003

As management of the City of San Diego (the "City"), we offer readers of the Redevelopment Agency (the "Agency") financial statements this narrative overview and analysis of the financial activities of the Agency for the fiscal year ended June 30, 2003. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Letter of Transmittal, which can be found on page vii of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements. The Agency's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Agency's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating.

The Statement of Activities presents information showing changes in the Agency's net assets during the most recent fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. The focus is on both gross and net cost of Agency functions, which are supported by general revenues. This statement also displays functions of the Agency that are principally supported by taxes, private contributions, and intergovernmental revenues (governmental activities). The governmental activities of the Agency include General Government and Support; Parks, Recreation, Culture and Leisure; and Neighborhood Services. The Agency does not engage in business-type activities.

The government-wide financial statements exclusively include the Agency (known as the Primary Government) with no legally separate, discretely presented component units. The government-wide financial statements can be found on pages 14-15 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Agency, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the Agency are combined into the governmental funds category.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable

resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Agency maintains individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the Centre City Project Area Other Special Revenue Fund, Debt Service Fund, and Capital Project Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 16-20 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found beginning on page 22 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, combining fund statements and schedules for nonmajor governmental funds can be found beginning on page 48 of this report. In addition, assessed valuation information for each project area can be found beginning on page 94 of this report.

The "Independent Auditor's Report on Internal Control and Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*" can be found on page 84 of this report.

* Certain prior year amounts have been reclassified to conform to current year presentation or to reflect changes resulting from prior period restatements (see Prior Period Restatement Note 11 on page 41-43).

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Agency, liabilities exceeded assets at June 30, 2003, by approximately \$209.8 million.

The deficit in the Agency's Investment in Capital Assets, Net of Related Debt is approximately \$1 million, or about half of 1% of Total Net Assets. The deficit is due to the fact that all Capital Assets of the Agency have been purchased with debt that is outstanding. The deficit represents accumulated depreciation on the Agency's structures, improvements and equipment. The decrease of approximately \$0.2 million, or about 31% over the prior year, represents the current year depreciation expense.

The Agency's Restricted Net Assets of approximately \$49.6 million represent resources that are subject to external restrictions on how they may be used. Restricted Net Assets increased by approximately \$9.5 million over the prior year, or about 24%, primarily due to an increase in the low and moderate income housing fund balance which is restricted. In Fiscal Year 2003, low and moderate income housing fund revenue increased by approximately \$3.1 million over the prior year due to overall tax increment growth for the Agency, increasing the 20% low to moderate income housing set a side. Also contributing to the increase in revenue was a greater allocation of tax increment revenue for low and moderate income housing projects from the Horton Plaza Redevelopment Project Area. In addition, low and moderate income housing fund balance increased in the current year due to an overall decrease in expenditures related to low and moderate income housing projects of approximately \$4.6 million over the prior year.

There are two major factors contributing to the Agency's deficit of approximately \$258.4 million in unrestricted net assets. First, the Agency has used long term debt to acquire properties that have been sold to developers or conveyed to the City at a loss. Second, the Agency uses a majority of the borrowed funds for activities such as public improvements, public parking, community development activities,

commercial and retail projects, housing, and rehabilitation of properties not owned by the Agency. The Agency has approximately \$315.5 million in bonds outstanding, \$221.4 million in outstanding loans due to the City of San Diego, and \$24.6 million of other debt, including loans from developers. The Agency borrows from the City mostly during the initial stages of a Project Area, then issues bonds or incurs other long-term debt to finance a substantial portion of its development activities. In addition to the public purpose of these activities, they are designed to generate additional tax increment revenues, a portion of which is used by the Agency to repay outstanding debt and finance additional projects.

Governmental Activities

Governmental activities increased the Agency's net assets by approximately \$4.8 million. Key elements of this increase are as follows:

- Operating Grants and Contributions revenue increased approximately \$1.2 million, or about 66%, due in part to a reimbursement received from a developer of \$0.7 million for planning, administrative and legal costs related to the Naval Training Center Project. In addition, interest revenue from notes to developers increased by approximately \$0.2 million in FY03 when compared to FY02.

- Revenues from Capital Grants and Contributions decreased in FY03 by approximately \$1.6 million, or about 10%, due to higher contributions received for redevelopment activity related to the Ballpark in FY02.
- Property Tax revenues increased approximately \$9.9 million, or about 22%, due to increases in assessed property valuations in various project areas. Of the total increase, approximately \$5.5 million is due to increased property values in the Centre City Redevelopment Project Area as a result of Ballpark development in the East Village and completion of various projects in the Little Italy, Cortez Hill, Columbia, and Marina neighborhoods. Increased property values in City Heights due to development of the Urban Village and Regional Transportation Center accounted for approximately \$2 million of the increase in tax revenue.
- General Government and Support expense increased approximately \$12.1 million, or about 69%, due to a \$3.9 million increase in taxing agency payments, including payments to the State of California's Educational Revenue Augmentation Fund (ERAF). The remainder of the increase is largely the result of planning and survey expenditures and administrative costs due to increased redevelopment activity in various project areas, most substantially in City Heights and Centre City.
- Neighborhood Services expense decreased by approximately \$80.8 million, or about 78%. In FY02 the conveyance of the ballpark capital asset to the City resulted in a \$60 million loss for the Centre City Capital Project Fund. Also in FY02, the Naval Training Center was conveyed from the City to the Redevelopment Agency in exchange for an \$8.3 million note. This resulted in an increase of Neighborhood Services expense of the same amount. In addition, loans from developers received in fiscal year 2002 related to projects in the Centre City and San Ysidro project areas resulted in higher Neighborhood Services expense of approximately \$4.8 million in the prior fiscal year. In addition, there was a decrease of \$2.6 million in Rehabilitation expenses in fiscal year 2003 mostly due to higher rehabilitation costs incurred during fiscal year 2002 in the Centre City Project Area.
- Interest on long-term debt decreased by approximately \$4.8 million, or about 16%, resulting from a City loan repayment from the Centre City Project Area which occurred in the prior year.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Agency uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

All of the Agency's funds are governmental funds, the focus of which is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Agency's near-term financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2003, the Agency's governmental funds reported combined ending fund balances of approximately \$281.6 million, an increase of \$21.5 million, or 8.2%, from the prior year. The increase is attributed in part to an increase of tax increment revenues, which provided total revenue growth of \$9.9 million, or about 22%, over the prior year. In addition, real estate asset acquisition expenditures decreased by approximately \$12 million, or about 52%, mostly due to land purchases related to the Ballpark Redevelopment Project in the Centre City Project Area. Approximately 38%, or \$108.4 million of the combined fund balances, constitutes unreserved fund balances, which is available for spending at the Agency's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed (1) to liquidate contracts and purchase orders of the period, (2) to pay debt service, or (3) for a variety of other restricted purposes.

Centre City Other Special Revenue Fund. The Centre City Other Special Revenue fund is used to account for revenues such as tax increment and parking revenue. The expenditures recorded in this fund

are primarily for tax sharing agreements with other Governmental Agencies. This fund also accounts for the receipt of bond proceeds and transfers to the Centre City Capital Project Fund and Centre City Debt Service Fund. The fund balance at June 30, 2003 amounted to approximately \$60.2 million which is an increase of \$0.8 million, or about 1.4% over the prior year. Although the fund balance remained relatively constant from year to year, there were significant transactions in FY03 worth noting. The issuance of the 2003 Tax Allocation Bonds and the 2003 Parking Revenue Bonds increased fund balance by approximately \$29.1 million. This increase was offset by transfers to the Centre City Capital Project Fund and the Centre City Debt Service Fund.

Centre City Debt Service Fund. The Centre City Debt Service fund is used to record debt-related activity such as debt service payments, investment activity for bonds held with a fiscal agent, and bond issuance costs associated with the Centre City Redevelopment Project Area. At the end of the fiscal year, the Centre City Debt Service fund had a total balance of approximately \$24.9 million of which \$24.7 million is reserved for debt service and the balance of \$0.2 million is unreserved, yet designated for unrealized gains. The fund balance showed an increase of approximately \$5.1 million from the prior year as a result of an increase of \$3.7 million in the reserve accounts related to the two new bond issuances. In addition, tax increment revenue allocated to the fund increased by \$1.5 million when compared to the prior year.

Centre City Capital Project Fund. The Centre City Capital Project fund is used to account for redevelopment expenditures related to various ongoing projects in the Centre City Redevelopment Project Area, with the use of such funding sources as tax increment, bond proceeds, and developer contributions. At the end of the fiscal year, the Centre City Capital Projects Fund had a total balance of approximately \$91.5 million, which is an increase of \$11.4 million over the prior year, or about 14.2%. The increase was due in part to \$18.5 million in parking revenue bond proceeds transferred from the Centre City Special Revenue fund for expenditures related to the 6th and L Parking Structure Project. In addition, \$3.8 million in developer contributions were received for this same project. This increase was offset by land acquisitions related to the Ballpark project totaling \$12.6 million.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

Capital assets of governmental funds are capitalized at the government-wide level and not at the fund level. Differences between the fund and government-wide statements reporting for these governmental assets will be explained in both the reconciliation and the accompanying notes to the financial statements (See Note 2).

The Agency’s investment in capital assets, net of accumulated depreciation, for governmental activities for the year ended June 30, 2003, amounts to approximately \$90.8 million, representing an overall increase in the Agency’s investment in capital assets of 17% over the previous year. The increase is primarily due to purchases of land in the Centre City East Village, Linda Vista, North Bay, North Park, and Naval Training Center areas, including the purchase of Tailgate Park for \$12.6 million.

* Certain prior year amounts have been reclassified to conform with current year presentation or to reflect changes resulting from prior period restatements (see Prior Period Restatement Note 11 on page 41-43).

In August 2002, the Agency issued \$3 million of Tax Allocation Bonds for the purpose of refunding a portion of certain loans previously used to finance public improvements in the Mount Hope

Redevelopment Project Area. The bonds were issued with a Aaa rating from Moody's Investors Service and a AAA rating from Standard and Poor's.

In January 2003, the Agency issued \$20.5 million of Parking Revenue Bonds to finance various redevelopment activities in the Centre City Project Area. The bonds were issued with a Baa2 rating from Moody's Investors Service and a A- rating from Fitch, Inc.

In January 2003, the Agency issued \$31 million of Tax Allocation Bonds to refund outstanding 1992 tax allocation bonds and to finance various redevelopment activities in the Centre City Project Area. The bonds were issued with Aaa and AAA ratings from Moody's Investors Service and Fitch, Inc., respectively.

Additional information about the Agency's long-term debt can be found in the accompanying note 5 to the financial statements.

TO THE STATEMENT OF ACTIVITIES

Net change in fund balances - total governmental funds (page 19)	\$ 21,451,238
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	13,182,162
Revenues in the Statement of Activities that do not provide current financial resources are reported as deferred revenue in the funds.	2,557,334
The issuance of long-term debt (i.e. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(31,849,208)
Some expenses reported in the Statement of Activities do not require the use of current financial resources (i.e. interest on long-term debt, amortization of bond premiums and discounts), and therefore are not accrued as expenses in governmental funds.	<u>(585,331)</u>

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2003**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Redevelopment Agency of the City of San Diego ("Agency") have been prepared in conformity with generally accepted accounting principles ("GAAP") as applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements. The significant accounting principles and policies utilized by the Agency are described below.

a. Scope of Financial Reporting Entity

The Agency was established by the City of San Diego Council in 1958 for the purpose of providing a method to revitalize deteriorated and blighted areas within designated areas of the City of San Diego ("City"). The Agency began functioning in 1969 pursuant to the Community Redevelopment Law of California as codified in the State of California Health and Safety Code.

Under GASB Statement No. 14, the Agency is considered a component unit of the City. The Agency's basic financial statements, which are presented as a blended component unit in the basic financial statements of the City, present an aggregation of funds associated with 17 redevelopment project areas. The redevelopment project areas are overseen by the Agency's three administrative units: Centre City Development Corporation ("CCDC"), Southeastern Economic Development Corporation, Inc. ("SEDC") and the Redevelopment Division of the City's Community and Economic Development Department.

CCDC and SEDC are non-profit corporations organized by the City to administer certain redevelopment projects (CCDC in downtown San Diego and SEDC in Southeast San Diego) as well as to provide redevelopment advisory services to the Agency. These activities are carried out pursuant to operating agreements with both the City and the Agency under which the City and the Agency agree to reimburse CCDC/SEDC for all eligible costs (as defined) incurred in connection with such activities.

The City Council, acting in accordance with the City Charter, the City's Municipal Code and applicable state laws, appoints the members of the Board of Directors of CCDC and SEDC and acts as the Agency's Board of Directors.

b. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the Agency. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

All funds presented in the fund financial statements are governmental funds. Major governmental funds are reported as separate columns in the fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Agency reports the following major funds:

Centre City Other Special Revenue Fund – The Centre City Other Special Revenue Fund is used to account for specific revenue sources related to the Centre City Redevelopment Project Area such as tax increment revenue and bond proceeds. This fund also accounts for transfers to the Centre City Capital Project Fund, the Centre City Debt Service Fund and payments to Other Taxing Entities.

Centre City Debt Service Fund – The Centre City Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs of the Centre City Redevelopment Project Area.

Centre City Capital Project Fund – The Centre City Capital Project Fund is used to account for costs associated with the acquisition of land held for resale, construction of major capital facilities, development and improvement of infrastructure and other public improvements in the Centre City Redevelopment Project Area.

Additionally, the Agency reports the following other governmental fund types:

Special Revenue Funds – Special revenue funds are used to account for proceeds of specific revenue sources (other than those for major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds – Debt service funds are used to account for the accumulation of resources for, and the payment of, governmental activities long-term debt principal, interest, and related costs.

Capital Projects Funds – Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

All non-major governmental funds are accounted for and reported similarly to major governmental funds.

c. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recognized when the related fund liability is incurred except for principal and interest of general long-term debt which are recognized when due.

Revenues which are considered susceptible to accrual include real property taxes, rents, and interest provided they are received within 60 days from the end of the fiscal year. Charges for services and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Amounts reported as program revenues include (1) operating grants and contributions, and (2) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

d. Tax Increment Revenue

Tax Increment Revenue represents those amounts derived each year from the receipt of taxes based on any increase in the taxable valuation of land, improvements and real property in a redevelopment project area over and above the base assessment roll for each redevelopment project area.

The County of San Diego (the "County") assesses, bills, and collects property taxes on behalf of numerous special districts and incorporated cities, including the Redevelopment Agency of the City of San Diego. The Agency's collections of current year's taxes are received through periodic apportionments from the County.

The County's tax calendar is from July 1 to June 30. Property taxes attach as a lien on property on January 1. Taxes are levied on July 1 and are payable in two equal installments on November 1 and February 1, and become delinquent after December 10 and April 10, respectively. Since the passage of California's Proposition 13, beginning with fiscal year ended 1979 general property taxes are based either on a flat 1% rate applied to the 1975-76 full value of the property or on 1% of the sales price of any property sold or of the cost of any new construction after the 1975-76 valuation. Taxable values of properties (exclusive of increases related to sales and new construction) can rise a maximum of 2% per year. The Proposition 13 limitation on general property taxes does not apply to taxes levied to pay the debt service on any indebtedness approved by the voters prior to June 6, 1978 (the date of passage of Proposition 13).

At the government-wide level, Tax Increment Revenue is recognized in the fiscal year for which the taxes have been levied. For the governmental funds, property tax revenue is recognized in the fiscal year for which the taxes have been levied, provided the taxes are received within 60 days of year end. Tax Increment Revenues received after this date are not considered available as a resource that can be used to finance the current year operations of the Agency and, therefore, are recorded as deferred revenue in the governmental funds.

e. Budgetary Data

Prior to June 1, the Executive Director submits to the Agency Board of Directors and the City Council, a proposed budget for the fiscal year commencing July 1. This budget includes annual budgets for many of the Debt Service funds, all Capital Project funds, and the Low/Mod 20% Set-Aside (Housing) Special Revenue fund.

A budget is not adopted for special revenue funds, other than the low and moderate income housing funds, since these funds are mostly used to collect tax increment revenue and bond proceeds. For this reason, a budget to actual comparison is not required for the Centre City Other Special Revenue major fund.

During the proposed budgetary hearing, public comment is heard. The Agency budget is then legally adopted generally during the months of May or June, through passage of an ordinance by the City Council and resolutions by the Agency Board of Directors.

Budgetary control is maintained at the total fund appropriation level. All amendments to the adopted budget require Agency Board of Directors' approval except as delegated in the Annual Appropriation Ordinance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reported budget figures are as originally adopted or subsequently amended plus prior year continuing appropriations. Such budget amendments during the year, including those related to supplemental appropriations, did not cause reported budget amounts to be significantly different than the originally adopted budget amounts.

f. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary control in the budgeted governmental funds.

Encumbrances outstanding at year-end are reported as reservation of fund balances since the commitments will be honored through subsequent years' continuing appropriations. Encumbrances do not constitute expenditures or liabilities for GAAP reporting purposes.

g. Equity in Pooled Cash and Investments

The Agency Pooled Cash and Investments are part of the City's Pooled Cash and Investments. The City's cash resources are combined to form a cash and investment pool managed by the City Treasurer (the Pool). The Pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it a 2a7-like pool. The investment activities of the Treasurer in managing the Pool are governed by California Government Code § 53601 and the City's Investment Policy which is reviewed by the Investment Advisory Committee and approved annually by the City Council. Interest earned on pooled investments is allocated to participating funds and entities based upon their average daily cash balance during the allocation month. Fair market value adjustments to the Pool are recorded annually; however the City Treasurer reports fair market values on a monthly basis. The value of the shares in the Pool is equal to the fair market value of the Pool.

The Pool participates in the State Treasurer's Local Agency Investment Fund (LAIF). Investments in LAIF are governed by State statutes and overseen by a five member Local Investment Advisory Board. The fair value of the City's position in LAIF may be greater or less than the value of the shares. Investments in LAIF are valued in these financial statements using a fair value factor provided by LAIF applied to the value of the City's shares in the investment pool.

Additionally, the Agency maintains individual accounts pursuant to bond issuances. The investment of these funds is governed by the policies set forth in individual indenture and trustee agreements.

All City investments are reported at fair value in accordance with the GASB 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*. Note 3 of the notes to the financial statements contain additional information on permissible investments per the City's Investment Policy and other policies applicable to the cash and investments reported herein.

h. Land Held for Resale

Land Held for Resale, purchased by the Agency, is reported in the government-wide and fund financial statements at the lower of cost or net realizable value. In the governmental fund financial statements, fund balances are reserved in an amount equal to the carrying value of land held for resale because such assets are not available to finance the Agency's current operations.

Land is originally recorded at historical cost and adjusted to net realizable value when the Agency enters into disposition and development agreements whereby the property will be sold for less

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

than its historical cost, when a property is impaired or when property values decrease due to market conditions.

i. Capital Assets

Non-depreciable Capital assets, which include land, are reported in the government-wide financial statements. Depreciable Capital assets, which include structures, improvements and equipment, are reported in the government-wide financial statements net of accumulated depreciation. To meet the criteria for capitalization, the asset must have a useful life in excess of one year and in the case of equipment outlay, must equal or exceed a capitalization threshold of \$5,000. This reflects a change from the previous limit of \$3,000, the resulting effect of which will have no effect on the financial statements as changes will be applied prospectively beginning with fiscal year ended June 30, 2003. All other capital assets such as land and structures are capitalized regardless of cost. Subsequent improvements are capitalized to the extent that they extend the initial estimated useful life of the capitalized asset or improve the efficiency or capacity of that asset. Costs for routine maintenance are expensed as incurred.

Capital assets, when purchased or constructed, are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at the estimated fair market value on the date of donation. Depreciation of capital assets is computed using the straight-line method over the estimated useful life of the asset as follows:

Assets	Years
Structures and Improvements	20-50
Equipment	3-25

j. Deferred Revenue

In the fund financial statements, deferred revenue represents revenues which have not met the recognition criteria based on the modified accrual basis of accounting.

k. Deferred Charges

In the government-wide financial statements, Deferred Charges represent the unamortized portion of bond issuance costs. These costs will be amortized over the life of the related bonds using a method which approximates the effective yield method.

l. Interfund Transactions

Interfund transactions between the Agency’s Governmental Funds are mostly transfers of assets (such as cash or goods) without equivalent flows of assets in return.

Tax increment revenue and proceeds from the issuance of long term debt are originally deposited in Special Revenue funds. As expenditures are incurred in the Capital Project Funds, cash is transferred from the Special Revenue Funds to cover the expenditures. In addition, tax increment revenue is transferred to the Debt Service Funds for payment of long term debt obligations.

m. Non-Monetary Transactions

Under certain agreements with the Agency, developers advance funds to the Agency for the purpose of acquiring land, sometimes under eminent domain. These advances, called land

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

acquisition credits, are earned at the time the funds are advanced by the developer. Historically, these credits have been used for infrastructure projects, such as the Ballpark. The Land acquisition credits are used against the sales price of other property within the Project Area.

n. Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Assets. Capital appreciation bond accretion, bond premiums and discounts, bond issuance costs and bond refunding gains and losses are amortized over the life of the bonds using a method which approximates the effective yield method. Net bonds payable reflect amortized bond accretion and unamortized bond discounts, premiums and refunding gains and losses.

o. Claims and Judgments

The costs of claims and judgments are accrued when incurred and measurable in the government-wide financial statements. In governmental funds, the costs of claims and judgments are recorded as expenditures when payments are made.

p. Net Assets and Fund Equity

In the government-wide financial statements, net assets are categorized as follows:

- Invested in Capital Assets, Net of Related Debt consists of capital assets, net of accumulated depreciation, and reduced by outstanding debt attributed to the acquisition of these assets.
- Restricted Net Assets consist of assets, net of any related liabilities, which have had restrictions imposed on them by external creditors, grantors, contributors, or laws or regulations of other governments or law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first and then unrestricted resources, as they are needed.
- Unrestricted Net Assets consist of net assets that do not meet the definition of Invested in Capital Assets, Net of Related Debt or Restricted Net Assets.

In the fund financial statements, portions of fund equity of governmental funds have been reserved for specific purposes. Reservations were created to either (1) satisfy legal covenants that require a portion of the fund balance to be segregated or (2) identify the portion of the fund balance that is not appropriable for future expenditures.

Designated fund balance represents that portion of fund equity for which the Agency has made tentative plans.

Undesignated fund balance represents that portion of fund equity which is available for appropriation in future periods.

q. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of certain assets and liabilities, disclosure of contingent assets and liabilities, and the related reported amounts of revenues and expenses. Actual results could differ from those estimates. Management believes that the estimates are reasonable.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Certain adjustments are necessary to reconcile governmental funds to governmental activities. The details of these adjustments are as follows.

- a. Explanation of certain differences between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Assets:

An element of the reconciliation states, "Other assets and liabilities used in governmental activities are not financial resources, and therefore, are not reported in the funds." The details of this \$8,490,460 difference are as follows:

Deferred Charges, net July 1, 2002	\$	1,827,246
Issuance Costs		1,231,839
Amortization Expense		(101,903)
Deferred Charges, net June 30 2003		<u>2,957,182</u>
Deferred Revenue		
Notes Receivable		<u>5,533,278</u>
Net adjustment	\$	<u><u>8,490,460</u></u>

The Governmental Funds Balance Sheet includes a reconciliation between Total Fund Balances - Governmental Funds and Total Net Assets - Governmental Activities as reported in the Government-wide Statement of Net Assets. Another element of the reconciliation states that "Some liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$(590,650,833) difference are as follows:

Bonds Payable	\$	(315,449,863)
Net Premiums and Discounts on Bond Issuances		(507,533)
Deferred Amounts on Refunding		761,753
Contracts Payable		(1,882,309)
Notes Payable		(19,930,755)
Loans Payable		(224,272,921)
Accrued Interest Payable		(4,915,001)
Accrued Arbitrage Rebate		(254,204)
Land Acquisition Credit		<u>(24,200,000)</u>
Net adjustment	\$	<u><u>(590,650,833)</u></u>

- b. Explanation of certain differences between the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities:

The Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between Net Change in Fund Balances - Total Governmental Funds and Changes in Net Assets of Governmental Activities as reported in the Government-wide Statement of Activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$13,182,162 difference are as follows:

Capital outlay	\$	13,409,491
Depreciation expense		(227,329)
Net adjustment	\$	<u><u>13,182,162</u></u>

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Another element of the reconciliation states that “The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$(31,849,208) difference are as follows:

Debt Issued or Incurred:	
Issuance of Revenue Bonds	\$ (20,515,000)
Less Discounts	124,341
Issuance of Tax Allocation Bonds	(34,055,000)

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Another element of the reconciliation states that "Some expenses reported in the Statement of Activities do not require the use of current financial resources, and therefore are not accrued as expenses in governmental funds." The details of this \$(585,331) difference are as follows:

Accrued interest on long-term debt	\$ (440,602)
Amortization of bond issuance costs	(101,903)
Amortization of bond premiums, discounts and deferred charge on Refunding	<u>(42,826)</u>

a. Cash or Equity in Pooled Cash and Investments

The Agency participates in the City's pooled Cash and Investments. The Agency does not own identifiable investment securities of the pool; rather, it participates as a shareholder of the pool. It does however, own identifiable investments which are not part of the pool and are managed by the City Treasurer. The Agency's share of the City's pooled cash and investments and the carrying amount of its Investments at Fair Value are included in the accompanying Statement of Net Assets under the caption "Cash or Equity in Pooled Cash and Investments."

3. CASH AND INVESTMENTS (Continued)

b. Cash and Investments with Fiscal Agent

Cash & Investments with Fiscal Agents represents cash and investments held by fiscal agents resulting from bond issuances. More specifically, these funds represent reserves held by fiscal agents or trustees as legally required by bond issuances and liquid investments held by fiscal agents or trustees which are used to pay debt service.

c. Investments at Fair Value

Investments at Fair Value represent investments managed by the City Treasurer (which are not part of the pool).

d. Investment Policy

City of San Diego Investment Policy

In accordance with the Charter of the City of San Diego and under authority annually approved by the City Council, the City Treasurer is responsible for the safekeeping and investment of the unexpended cash in the City Treasury according to the City's Investment Policy (the "Policy"). This Policy applies to all of the investment activities of the City except for the pension trust funds, the proceeds of certain debt issues which are managed and invested at the direction of the City Treasurer or by Trustees appointed under indenture agreements or by fiscal agents, and the assets of trust funds which are placed in the custody of the Funds Commission by Council ordinance.

The Policy is reviewed annually by the Investment Advisory Committee (IAC) which makes recommendations regarding the Policy to the City Council. The IAC consists of two City representatives and three outside financial professionals with market and portfolio expertise not working for the City of San Diego. The City Council reviews the Policy and considers approval on an annual basis.

In reviewing the Policy, the IAC evaluates the horizon returns, risk parameters, security selection, and market assumptions the City's investment staff is using when explaining the City's investment returns. The IAC also meets semi-annually to review the previous two quarters' investment returns and make recommendations to the City Treasurer on proposals presented to the IAC by the Treasurer's staff.

In addition to the Policy, authorized cash deposits and investments are governed by state law. Within the context of these limitations, permissible investments include:

- (1) Obligations of the U.S. government and federal agencies with a maximum maturity of five years,
- (2) Commercial paper rated A-1+ by Standard & Poor's, P-1 by Moody's, or F-1 by Fitch,
- (3) Banker's acceptances,
- (4) Negotiable certificates of deposit issued by a nationally or state chartered bank or a state or federal savings and loan institution or a state-licensed branch of a foreign bank,
- (5) Repurchase and reverse repurchase agreements,
- (6) The local agency investment fund established by the State Treasurer,
- (7) Financial futures transactions to hedge against changes in market conditions for the reinvestment of bond proceeds,
- (8) Government agency mortgage-backed securities and other AAA rated asset-backed securities with a maximum maturity of five years,

3. CASH AND INVESTMENTS (Continued)

- (9) Medium-term corporate notes of a maximum of three years maturity issued by corporations operating within the United States,
- (10) Shares of beneficial interest issued by diversified management companies, as defined in Section 23701(m) of the California Revenue and Taxation Code,
- (11) Non-negotiable time deposits collateralized in accordance with California Government Code,
- (12) Floating rate notes whose coupon resets are based upon a single fixed income index,
- (13) Structured notes issued by U.S. government agencies that contain imbedded calls or options as long as those securities are not inverse floaters, range notes, interest only strips or a security that could result in a zero or negative accretion of interest if held to maturity, and
- (14) Financial futures given they are only used to hedge against changes in market conditions for the reinvestment of bond proceeds when deemed appropriate.

According to the Policy, the City may enter into repurchase and reverse repurchase agreements only with primary dealers of the Federal Reserve Bank of New York with which the City has entered into a master repurchase agreement. Exceptions to this rule can be made only upon written authorization of the City Treasurer.

The types of investments listed below are additionally restricted as to percentage of the cost value of the portfolio in any one issuer name up to a maximum of 5%. The total cost value invested in any one issuer name will not exceed 5% of an issuer's net worth. An additional 5% or a total of 10%, of the cost value of the portfolio in any one issuer name can be authorized upon written approval of the City Treasurer.

- Bankers Acceptances
- Commercial Paper
- Medium Term Corporate Notes/Bonds
- Negotiable and Non-negotiable Certificates of Deposit

Ineligible investments include, but are not limited to, common stocks and long-term corporate notes/bonds, are prohibited from use in the portfolio. A copy of the Policy can be requested from the City Treasurer, 1200 3rd Avenue, Suite 1624, San Diego, California, 92101.

Other Investment Policies

The City and its component units, including the Agency, have funds invested in accordance with various bond indenture and trustee agreements.

Changes In Long-Term Liabilities

The following is a summary of changes in governmental activities long-term liabilities for the year ended June 30, 2003. The effects of bond accretion, bond premiums, discounts and deferred amounts on bond refunds are amortized as adjustments to long-term liabilities with corresponding adjustments made to beginning balances.

	Beginning Balance, As Previously Reported At July 1, 2002	Restatements (Note 11)	Beginning Balance, As Restated at July 1, 2002	Additions	Reductions	Balance, June 30, 2003	Due Within One Year

Additions to governmental activities long-term debt for Notes and Loans Payable differs from proceeds reported on the Statement of Revenues, Expenditures and Changes in Fund Balances due to the inclusion of accumulated interest on notes and loans payable to the City. In the current year \$8,290,980 in interest was added to the City Loans and Notes Payable. Also, in fiscal year 2003, contributions from the City of San Diego to the Crossroads Project Area received in prior years, totaling \$169,700 was recharacterized as loans payable. Additional loans from the City incurred in the current year for the purpose of funding various redevelopment activities totaled \$8,626,512 (See Note 10).

The Agency incurred \$2,431,700 in debt from the City for properties conveyed in exchange for Notes Payable (See Note 10). In addition, the Agency entered into loan agreements with developers totaling \$975,000.

Defeasance of Debt

The Redevelopment Agency issued \$31,000,000 of Centre City Subordinate Tax Allocation Bonds, Series 2003A. A portion of the bond proceeds was used to advance refund the remaining outstanding Centre City Tax Allocation Refunding Bonds, Series 1992. The refunded bonds are defeased and the corresponding liability has been removed from the Statement of Net Assets. The refunding transaction resulted in a total economic gain of approximately \$639,160. In addition, the refunding resulted in a cash flow savings of approximately \$699,880. The refunded bonds were redeemed at a call date prior to the end of the fiscal year and, accordingly, there was no balance outstanding as of June 30, 2003.

5. GOVERNMENTAL ACTIVITIES LONG TERM DEBT (Continued)

On August 15, 2002, The Redevelopment Agency issued \$3,055,000 of Tax Allocation Refunding Bonds for the purpose of refunding a portion of certain loans previously used to finance public improvements in the Mount Hope Redevelopment Project Area.

As of June 30, 2003, principal amounts payable from escrow (irrevocable trust) funds established for defeased bonds are as follows:

Defeased Bonds	Amount Outstanding as of June 30, 2003
Centre City Redevelopment Project Tax Allocation Bonds, Series 1993 B	\$ 7,620,000
Horton Plaza Redevelopment Project Tax Allocation Refunding Bonds, Series 1996 B	6,640,000
Total Defeased Bonds Outstanding	<u>\$ 14,260,000</u>

6. SHORT-TERM DEBT

The Agency issues short-term promissory notes to finance project improvement activities. These promissory notes may be repaid with housing set-aside funds, in-lieu and land payment funds, and/or discretionary tax increment funds.

Short-term debt activity for the year ended June 30, 2003 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
Note Payable to San Diego Revitalization, dated February 2003	\$ -	\$ 2,595,495	\$ -	\$ 2,595,495

7. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivable and payable balances are the result of loans between funds that are expected to be repaid during the next fiscal year. Interfund receivable/payable balances at June 30, 2003 are as follows:

	Benefiting Fund (Payable)		
	Centre City Other Special Revenue	Other Governmental Funds	Total Governmental Funds
<u>Contributing Fund (Receivable)</u>			
Centre City Debt Service	\$ 1,189,329	\$ -	\$ 1,189,329
Centre City Capital Projects	45,692,872	-	45,692,872
Other Governmental Funds	-	10,961,726	10,961,726
Total Governmental Funds	<u>\$ 46,882,201</u>	<u>\$ 10,961,726</u>	<u>\$ 57,843,927</u>

7. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (Continued)

Interfund transfers result from the transfer of assets without the expectation of repayment. In the case of redevelopment agencies, transfers are most commonly used to move revenues from the fund in which they are collected to the fund in which they are expended. Interfund transfer balances at June 30, 2003 are as follows:

Contributing Fund	Benefiting Fund				
	Centre City Other	Centre City	Centre City	Other	Total
	Special Revenue	Debt Service	Capital Projects	Governmental Funds	Governmental Funds
Centre City Other Special Revenue	\$ -	706,060	36,804,322	\$ -	\$ 37,510,382
Centre City Debt Service	438,144	-	1,031	-	439,175
Centre City Capital Projects		4,800,000	1,573,448	-	6,373,448
Other Governmental Funds	-	2,000,000	-	11,474,150	13,474,150
Total Governmental Funds	\$ 438,144	\$ 7,506,060	\$ 38,378,801	\$ 11,474,150	\$57,797,155

8. NET ASSETS DEFICIT

The Agency has a net assets deficit of \$(209,761,829) at June 30, 2003, which includes a deficit in unrestricted net assets of \$(258,384,801). The major factor contributing to the Agency's deficit of \$(258,384,801) is the use of long term debt to acquire properties that have been sold to developers or conveyed to the City at a loss. In addition, long term debt has been used to fund redevelopment activities costs that are not capitalized. A majority of the borrowed funds are used for activities such as public improvements, public parking, community development activities, commercial and retail projects, housing, and rehabilitation of properties not owned by the Agency. In addition to the public purpose of these activities, they are designed to generate additional tax increment revenues, a portion of which is used by the Agency to repay outstanding debt and finance additional projects.

9. FUND DEFICIT

The following table identifies funds with a net deficit as of June 30, 2003:

Fund	Net Deficit
Barrio Logan Capital Project	\$ (16,643)
College Community Capital Project	(216,680)
College Grove Capital Project	(30,443)
Crossroads Capital Project	(246,663)

All of the deficits can be attributed to timing of inflows of financial resources. Most expenditures in Capital Project Funds are reimbursed from Special Revenue Funds through transfers at the time cash is disbursed. In the case of these funds, expenditures related to City services have been accrued in the Capital Project Funds and will be reimbursed at the time of payment the following year.

10. RELATED PARTY TRANSACTIONS

During the year ended June 30, 2003, the Agency received loans and notes from the City totaling \$11,058,212. Of the total, \$2,431,700 was used to finance property acquisitions in the City Heights and Barrio Logan project areas. The balance was used to fund other redevelopment activity.

In addition, during the year ended June 30, 2003, the Agency received contributions from the City totaling \$4,794,426. Of the total, \$2,592,288 was for development of the Cortez Hill Transitional Housing Project, \$1,972,961 for development of parking facilities in the Centre City Project Area and \$811,811 for the Regional Transportation Center Project in the City Heights Project Area.

During the year ended June 30, 2003, the Agency's participation in various City Capital Improvement Projects totaled \$3,382,919. This participation included work in the Central Imperial, Centre City, City Heights, North Bay and Southcrest project areas.

11. RESTATEMENTS

The Agency's Net Assets as of June 30, 2002, have been restated as follows:

	Governmental Activities
Net Assets as of June 30, 2002, as Previously Reported	\$ (195,564,440)

12. Understatement of Land Acquisition Credits	(27,050,000)
Net Assets as of June 30, 2002, as Restated	<u>\$ (214,518,024)</u>

During the fiscal year 2003 financial statement preparation process, the City performed activities to identify and correct errors in the fiscal year 2002 financial statements. A summary of these errors are as follows:

1. An analysis of accounts identified bond discounts, premiums and accretions which were not capitalized. This was the result of recording costs related to the issuance of bonds as an expense rather than capitalizing and amortizing them over the debt period. The resulting adjustment was an increase in bonds payable and a decrease to net assets of \$2,986,392.
2. An analysis of accounts identified bond issuance costs which were not capitalized as deferred charges. This was the result of recording costs related to the issuance of bonds as an expense rather than capitalizing and amortizing them over the debt period. The resulting adjustment was an increase in deferred charges and an increase to net assets of \$1,827,245.

11. RESTATEMENTS (Continued)

3. An analysis and reconciliation of deferred revenue accounts identified transactions that were shown as deferred revenues in prior fiscal years but had subsequently met the criteria for recognition as revenues. The resulting adjustment was a decrease in deferred revenue and an increase in net assets of \$18,080,152.
4. An analysis of long-term debt identified tax allocation bonds which had been defeased in November 2000 but not removed. This was the result of recording the transfer to escrow agent as additional purchases of investments. The resulting adjustment was a decrease in investments at fair value of \$6,974,316, a decrease in bonds payable of \$6,640,000 and a decrease in net assets of \$334,316.
5. An analysis of long-term debt identified a reimbursement contract where costs incurred by the developer had not been recorded. The resulting adjustment was an increase in contracts payable and a decrease in net assets of \$117,123.
6. An analysis of long-term debt identified two developer loans that had not been recorded and another developer loan which had been paid off but not removed. The resulting adjustment was a decrease in loans payable and an increase in net assets of \$1,374,000.
7. An analysis of long-term debt identified transactions which had incorrectly been recorded as loans from the City of San Diego. The resulting adjustment was a decrease in loans payable and an increase in net assets of \$18,347,116.
8. An analysis of long-term debt identified a note from the City which had not been recorded as notes from the City of San Diego. The resulting adjustment was an increase in notes payable and a decrease in net assets of \$8,300,000.
9. An analysis of land held for resale accounts identified 1) land which had been sold or conveyed in prior years; 2) land which was no longer being held for resale and not reclassified as non-depreciable capital assets; 3) land being held for resale which was classified as non-depreciable capital assets; 4) costs associated with land acquisition which were included for properties that were not purchased; and 5) costs associated with land acquisition which were expensed rather than included in the cost of land held for resale. The analysis further identified land held for resale was recorded at its cost rather than its net realizable value, where determinable. The resulting adjustment was a decrease in land held for resale and a decrease in net assets of \$34,330,847.
10. An analysis of non-depreciable capital assets identified 1) land which had been purchased in prior years; 2) land which was no longer being held for resale and not reclassified as non-depreciable capital assets; 3) land being held for resale which was classified as non-depreciable capital assets; 4) costs associated with land acquisition which were included for properties that were not purchased; 5) costs associated with land acquisition which were expensed rather than included in the cost of land held for resale; and 6) land which was being reclassified from land held for resale was excluded from non-depreciable capital assets. The resulting adjustment was an increase in non-depreciable capital assets and an increase in net assets of \$6,632,701.
11. An analysis of depreciable capital assets identified a capital improvement project which was placed into service in a prior year was not capitalized and depreciated. The resulting adjustment was an increase in depreciable capital assets and an increase in net assets of \$7,903,880.
12. In November 1998 the Redevelopment Agency (the "Agency") entered into a Memorandum of Understanding with the Padres, and other entities, in which the Padres and Agency agreed to a land conveyance of various land parcels within the downtown ballpark area. The Padres agreed to advance funds to the Agency so that the Agency could buy land parcels (possibly through eminent domain) which would then be conveyed back to the Padres once certain legal

11. RESTATEMENTS (Continued)

requirements were met for development of the land by the Padres. From 1999 through June 30, 2002 the Padres had advanced a total of \$27,050,000 to the Agency. The Agency then used these monies to buy various parcels around the Ballpark area. However, these funds represented a future liability to the Agency, a commitment to convey these land parcels to the Padres. This liability was never recorded in the governmental activities; the resulting adjustment was a decrease in Net Assets for governmental activities of \$27,050,000.

4. Overstatement of Deferred Revenue	<u>15,020,024</u>
Fund Balances as of June 30, 2002, as Restated	<u><u>\$ 260,120,416</u></u>

1. An analysis of deferred revenue accounts identified a working capital advance which was recorded as deferred revenue rather than fund balance reserved for advances and deposits. The resulting adjustment was a decrease in deferred revenue and an increase in fund balance of \$84,184.

2. An analysis of long-term debt identified tax allocation bonds which had been defeased in November 2000 but not removed. This was the result of recording the transfer to escrow agent as additional purchases of investments. The resulting adjustment was a decrease in investments at fair value of \$6,974,316 and a decrease in fund balance of \$6,974,316.

3. An analysis of land held for resale accounts identified 1) land which had been sold or conveyed in prior years; 2) land which was no longer being held for resale and not reclassified as non-depreciable capital assets; 3) land being held for resale which was classified as non-depreciable capital assets; 4) costs associated with land acquisition which were included for properties that were not purchased; and 5) costs associated with land acquisition which were expensed rather than included in the cost of land held for resale. The analysis further identified land held for resale was recorded at its cost rather than its net realizable value, where determinable. The resulting adjustment was a decrease in land held for resale and a decrease in net assets of \$34,330,847.

4. The Agency erroneously recorded as expenditures loans to developers for \$15,020,024. The resulting adjustment was to decrease to deferred revenue and increase fund balance by \$15,020,024.

12. SUBSEQUENT EVENTS

On July 9, 2003, the Redevelopment Agency of the City of San Diego issued \$18,855,000 of Subordinate and Junior Lien Tax Allocation Bonds, and Tax Allocation Housing Bonds for the purpose of financing the renovation of the Agency-owned Balboa Theatre and various low and moderate income housing projects pursuant to the Horton Plaza Redevelopment Plan. The Series 2003 A and B Bonds are payable from and secured by pledged tax increment revenues, subordinate and junior lien, respectively, and the Series 2003 C Bonds are payable from and secured by pledged housing tax increment revenues derived from the Horton Plaza Redevelopment Project Area. The interest rates on the bonds range from 3.25 to 7.74 percent and the maturity date for each issue is November 1, 2021.

The Sliding Scale Recovery (Mary Carter) Settlement Agreement was executed in November 2003, in connection with the lawsuit entitled PDP Imperial Partners, LLC v. The Redevelopment Agency of the City of San Diego, et al. The lawsuit filed by the developer and construction contractor claims that the City and Agency breached the development agreement and construction contract, causing damages. The full amount of the settlement was paid by the Specialty National Insurance Company (SNIC), insurance carrier for the City, the Agency and Southeastern Economic Development Corp. and the Special Liability Insurance Program Fund, which administers the Program Aggregate Deductible related to the SNIC policy. The settlement amount was \$1,635,000.

On December 17, 2003, the Redevelopment Agency of the City of San Diego issued \$5,820,000 of Housing Set-Aside Tax Allocation Bonds for the purpose of financing low and moderate income housing redevelopment activities. The Series 2003 A and B bonds are payable from and secured by housing set-aside tax revenues derived from the City Heights Project Area. The interest rates on the Series A and B bonds range from 2.0 to 6.5 percent with maturity dates of September 1, 2033, and September 1, 2013, respectively.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Redevelopment Agency of the City of San Diego, California (Agency), a component unit of the City of San Diego, California, as of and for the fiscal year ended June 30, 2003, which collectively comprise the Agency's basic financial statements and have issued our report thereon dated May 24, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Agency's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Agency's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying schedule of findings as item 2003-1.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we consider item 2003-1 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. Such provisions include those provisions of laws and regulations identified in the *Guidelines for Compliance Audits of California Redevelopment Agencies* issued by the State Controller's Office and as interpreted in the *Suggested Auditing Procedures for Accomplishing Compliance Audits of California Redevelopment Agencies*, issued by the Governmental Accounting and Auditing Committee of the California Society of Certified Public Accountants. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2003-a through 2003-g.

This report is intended solely for the information and use of the Board of Directors, management of the Agency and the State Controller's Office and is not intended to be and should not be used by anyone other than these specified parties.

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
CURRENT YEAR FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 2003**

Financial Statement Findings:

2003-1 Financial Reporting

During our audit of the Agency's basic financial statements we noted several internal control deficiencies that resulted in numerous errors and restatements of previously issued financial statements. Some of the deficiencies noted during the audit are as follows:

- Improper financial statement presentation of debt transactions
- Failure to properly record certain loan transactions (e.g. loans paid off were not removed, and new loans were not recorded)
- Failure to transfer completed projects out of construction in progress to begin depreciating these assets
- Improper classification of assets
- Improper valuation of land held for resale
- Incomplete capture of capitalizable expenditures (i.e., amounts were expensed versus capitalized)
- Failure to recognize certain revenues that met applicable revenue recognition criteria

The Agency did not maintain effective internal controls over the financial reporting process. Specifically, the Agency lacked a sufficient complement of personnel with an appropriate level of accounting knowledge, experience and training in the application of generally accepted accounting principles (GAAP) commensurate with the Agency's financial reporting requirements to meet objectives that should be expected of those roles. These control deficiencies result in future misstatement of account balances that resulted in material misstatements to annual financial statements that would not be prevented or detected. Accordingly, these control deficiencies constitute a material weakness.

We recommend that the Agency implement proper policies, procedures, and internal controls to ensure accurate and reliable reporting of account balances. Additionally, the Agency should evaluate the adequacy of the current resource level in the Agency's accounting function.

Management Response:

We agree. The Agency and the City recognize the need for an improved financial reporting control framework and as such, continue to construct a better financial reporting process. As part of this, the Agency and the City have committed to implementing all applicable remediation actions outlined in the Kroll report. Most notably, the City has begun the procurement process for a new financial accounting system (Enterprise Resource Planning System), implementation of this system, will result in overhauling the vast majority of the City's accounting practices.

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
CURRENT YEAR FINDINGS AND RECOMMENDATIONS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2003**

Compliance Findings:

2003-a 20% Tax Increment Allocation

The California Health and Safety Code section 33334.6 (c) states that “*except as otherwise permitted by subdivisions (d) and (e), not less than 20 percent of the taxes allocated to the agency pursuant to Section 33670 from project areas specified in subdivision (b) for the 1985-86 fiscal year and each succeeding fiscal year shall be deposited into the Low and Moderate Income Housing Fund*”. Furthermore, guidance from the State Attorney General’s office informed redevelopment agencies that the computation should be based on the gross tax increment allocated to the agencies.

During our compliance testwork, we noted that the Redevelopment Agency of the City of San Diego (Agency) deposited 20% of the net tax increment rather than the gross amount allocated to the Agency by the County of San Diego (the County).

This error was caused by the Agency’s lack of written policies and procedures to aid personnel in calculating the 20% tax increment allocations to the Agency’s 17 housing funds. As such, the Agency’s housing funds did not receive sufficient funds to expend on low and moderate housing activities in the Agency’s project areas.

We recommend that the Agency draft written policies and procedures to provide guidance in the calculation of the low and moderate income housing fund amounts.

Management Response:

We agree. The Auditor & Comptroller’s Office has already changed the process for calculating the 20% set aside using gross revenues in FY 2004. While we agree this is an important compliance issue, the FY 2003 financial statements were not restated as the dollar amount associated with the change for that year were deemed immaterial. The Agency also agrees with this finding and will ensure the calculations are performed in this manner in future years.

2003-b Annual Report Submission to the City Council

The California Health and Safety Code section 33080.1 states that “*every redevelopment agency shall submit an annual report to its legislative body within six months of the end of the agency’s fiscal year.*” The annual report should include: “(1) *an independent financial audit report for the previous fiscal year, (2) a fiscal statement for the previous fiscal year that contains the information required pursuant to Section 33080.5, (3) a description of the agency’s activities in the previous fiscal year affecting housing and displacement that contains the information required by Sections 33080.4 and 33080.7, (4) a description of the agency’s progress, including specific actions and expenditures, in alleviating blight in the previous fiscal year, (5) a list of, and status report on, all loans made by the redevelopment agency that are \$50,000 or more, that in the previous fiscal year were in default, or not in compliance with the terms of the loan approved by the agency, (6) a description of the total number and nature of the properties that the agency owns and those properties the agency has acquired in the previous fiscal year.*”

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
CURRENT YEAR FINDINGS AND RECOMMENDATIONS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2003**

During our testwork on compliance disclosure and reporting, we noted that the Agency did not prepare and submit a complete annual report for the fiscal year ended June 30, 2002 to the Board of Directors within six months of the end of the fiscal year. The Agency's procedure was to complete all components of the annual report prior to submitting to the Board of Directors; however, not all components of the report were completed within six months of the end of the fiscal year due to a lack of personnel and an incomplete audit of the Agency's financial statements.

We recommend that the Agency prepare and submit the required reports to the Board of Directors within six months of the fiscal year end. In the case, an audit has not been complete, the Agency should include a note indicating that an Independent Auditor's Report has not been issued as of the time of submission. The Agency should also state that since the financial numbers used are unaudited, there are potential changes in the reports. In addition, the Agency should develop proper policies and procedures and assign appropriate personnel to the development of the annual report.

Management Response:

We agree. The Agency plans to submit the required reports to City Council in future years within six months of the end of the fiscal year. City will also ensure Council is made aware if the reports are still "unaudited" at the time of submission.

2003-c Monitoring of Available Affordable Housing

In accordance with the California Health and Safety Code Section 33418, "*an agency shall monitor on an ongoing basis, any housing affordable to persons and families of low or moderate income developed or otherwise made available pursuant to any provisions of this part. As part of this monitoring, an agency shall require owners or managers of the housing to submit an annual report to the agency. The annual reports shall include for each rental unit the rental rate and the income and family size of the occupants, and for each owner-occupied unit whether there was a change in ownership from the prior year and, if so, the income and family size of the new owners. The income information required by this section shall be supplied by the tenant in a certified statement on a form provided by the agency.*"

During our testwork related to the monitoring of the levels of available affordable housings to low and moderate income households, the Agency was unable to provide monitoring reports received from owners or managers of the housing, or show that any monitoring had been performed for the fiscal year ended June 30, 2003. We noted that the Agency did not have any written policies and procedures over monitoring of available affordable housing.

We recommend that the Agency develop procedures to perform monitoring as required by the California Health and Safety Code cited above. In addition, the Agency should require all owners or managers of housing to submit an annual report to the Agency. The Agency should utilize these reports in the performance of the monitoring activities as required by the California Health and Safety Code.

Management Response:

We agree. The Agency will develop procedures to perform monitoring as required by the California Health and Safety Code cited above. Included in these procedures will be the

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
CURRENT YEAR FINDINGS AND RECOMMENDATIONS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2003**

process to ensure that all owners and managers of affordable housing submit an annual report to the Agency.

2003-d Real Property Acquisitions

In accordance with the California Health and Safety Code Section 33334.16, "For each interest in real property acquired using moneys from the Low and Moderate Income Housing Fund, the agency shall, within five years from the date it first acquires the property interest for the development of housing affordable to persons and families of low and moderate income, initiate activities consistent with the development of the property for that purpose."

The Agency was unable to provide a complete and detailed listing of properties held by the Agency at June 30, 2003 that were acquired using resources from the Low and Moderate Income Housing Fund. We noted that there was a lack of written policies and procedures and assignment of appropriate personnel to the development of the Agency's annual report to the Board of Directors, which includes the detailed listing of properties held by the Agency. Without the detailed listing of properties acquired using resources from the Low and Moderate Income Housing Fund, the Agency is deemed to be noncompliant with California Health and Safety Codes.

We recommend that the Agency (i) maintain detailed records of real property acquired using resources from the Low and Moderate Income Housing Fund and (ii) initiate activities consistent with the development of the property, in accordance with the California Health and Safety Code.

Management Response:

We agree. The Agency will maintain detailed records of real property acquired using Low and Moderate Income monies and will provide this detailed asset listing to the City's Auditor & Comptroller's office every June 30th. The Agency will also improve the monitoring process to ensure that the development is initiated on all properties within 5 years from the date it acquires these properties.

2003-e Planning and Administrative Expenses

The California Health and Safety Code Section 33334.3 (d) states that, "*the agency shall determine annually that the planning and administrative expenses are necessary for the production, improvement, or preservation of low- and moderate-income housing.*" The *Guidelines for Compliance Audits of California Redevelopment Agencies part b, para. 9*, issued by the California Comptroller, further clarifies this requirement by indicating that this determination must be made annually in writing.

During our testwork on planning and administrative expenditures, we noted that even though planning and administrative expenditures were necessary for the production, improvement, or preservation of low- and moderate-income housing, this determination was not made in writing. As such, the Agency is noncompliant with California Health and Safety Codes for the fiscal year ended June 30, 2003.

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
CURRENT YEAR FINDINGS AND RECOMMENDATIONS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2003**

We recommend that the Agency require its Board of Directors to officially determine that the planning and administrative expenses are necessary for the production, improvement, or preservation of low and moderate income housing, as required.

Management Response:

We agree. The Agency will go before the Board of Director's and get, in writing, an official determination that the planning and administrative expenses are necessary for the production, improvement, or preservation of low and moderate income housing.

2003-f Pledging of Collateral

In accordance with the *Guidelines for Compliance Audits of California Redevelopment Agencies Section B, para 8*, "if Housing Fund money or revenue was pledged as all or part of collateral for a debt issuance made during the period being audited, an appropriate amount of debt proceeds, in addition to the 20% of gross tax increment should be deposited into the Housing Fund."

During our audit, we noted that while tax increment revenues from the Housing Fund were pledged as collateral for new debt issuances during fiscal year 2003, the Agency did not allocate any portions of the debt proceeds to the Housing Fund, as required. The Agency was unaware of any such requirements. As such, the Agency's various housing funds are understated for the amount of debt proceeds that were not appropriately allocated at the time of debt issuance.

We recommend that the Agency transfer the appropriate amount of debt proceeds from various special revenue funds that currently account for debt proceeds to the Housing Fund.

Management Response:

We agree. While the Agency currently sets proceeds aside in separate special revenue funds, they have not been transferred directly into the Housing funds established with the bond issue. The Agency will transfer the appropriate amount of debt proceeds into the Housing Funds as required in the Guidelines cited above.

2003-g Conflict of Interest

The California Government Code section 87300 requires that every agency "adopt and promulgate a Conflict of Interest Code." In addition, the Centre City Development Corporation's Conflict of Interest Code outlines those persons that are required to file a Statement of Economic Interests.

During our review of the filing of Statement of Economic Interests forms, we noted that the Agency was unable to locate 3 out of the 80 forms selected for testing. However, the City Clerk provided "Statement of Economic Interests Filing Records" that indicates that the forms were filed, but could not be located. In addition, we noted that 8 out of 77 forms that were provided by the Agency were submitted late by the respondents (i.e. subsequent to April 1).

**REDEVELOPMENT AGENCY OF THE CITY OF SAN DIEGO
CURRENT YEAR FINDINGS AND RECOMMENDATIONS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2003**

The Agency's policy is to penalize individuals that do not submit Statements of Economic Interest in a timely fashion; however, we noted that the Agency did not strictly enforce this policy. Additionally, there is the likelihood that the Statement of Economic Interest forms were misplaced or destroyed; however, the City did not have proper controls over record retention.

We recommend that the Agency develop procedures to ensure that all required Statement of Economic Interests forms are submitted in a timely fashion and enforce its current policy for untimely submissions of the Statement of Economic Interests. Furthermore, the Agency should improve its record retention procedures to ensure that these forms can be easily located to support the Agency's contention of compliance with its Conflict of Interest Codes.

Management Response:

The City and Agency agree. It is the policy of the City for all employees, including those of the Redevelopment Agency, to submit forms annually to the City Clerk's office. The City Clerk has record of these three forms being filed but cannot locate the hard copies of the forms at this time. The Clerk has a documented process for retention of these forms and these exceptions appear to be an anomaly.
